SUMMARY

Web developer with 2.5 years of experience inheriting strong foundation in frontend and backend technologies, and a proven track record of designing and developing web applications. Experienced in collaborating with cross-functional teams.

WORK EXPERIENCE

Redxcel Solution - Frontend Developer
September 2022 - August 2023

- Product Ul: Engaged in end-to-end Ul/UX design and development for a ReactJS-based product software. Collaborated with cross-functional teams to design and implement both admin and user interfaces, ensuring a seamless and cohesive user experience
- CRM System: Significantly contributed to the design and development of a CRM system specializing in sales and lead management.
- Fullstack integration. Played a role in integration between the frontend and backend, utilizing REST APis. Implemented JWT-like features to enhance authentication and security measures, contributing to a robust and secure fullstack architecture.
- System Design: Played a key role in the overall system design. Incorporating frontend technologies such as React. NextS, and Typescript. Ensured scalability, efficiency, and a responsive user interface.
- Agile Methodologies: Participated actively in daily stand-ups, sprint planning, and retrospectives using Agile methodologies. Collaborated seamlessly with cross-functional teams to deliver features in iterative cycles.

Birlasoft - Software Developer
February 2021 - August 2022

- Developed and implemented backend solutions using Nodejs and Expressjs to meet specific business requirements.
- Involved in creation of server-side logic, emphasizing scalability and efficiency
- Collaborated closely with a team of developers and product managers to gather backend-specific requirements and design solutions
- Implemented error handling and logging mechanisms for proactive issue identification and resolution.
- Integrated databases seamlessly into backend systems, ensuring data consistency and reliability.
- Utilized query optimization techniques for efficient data retrieval and manipulation.
